

# SANJAY KUMAR SAH

[sahsanjay2006@gmail.com](mailto:sahsanjay2006@gmail.com) | +917783835165 | Mullana, Haryana | [LinkedIn](#)

## Professional Summary

Full-Stack Software Engineer with project experience developing scalable web applications, real-time systems, and data-driven solutions. Proficient in Python, C++, Java, React, Django REST Framework, SQL, and PostgreSQL with hands-on experience in backend development, ETL pipelines, and cloud technologies. Engineered and optimized multiple academic and personal projects serving 50+ simulated users, improving data processing efficiency and reducing response latency by 30%. Demonstrated sharp critical thinking and clear articulation through national hackathons and collaborative software development.

## Skills

- **Programming Languages:** Python, C++, Java, SQL, JavaScript
- **Frontend & Web Technologies:** HTML, CSS, React
- **Backend & Frameworks:** Django REST Framework, REST APIs
- **Databases:** MySQL, PostgreSQL
- **Cloud Technologies:** Oracle Cloud Infrastructure, Basic Azure & AWS
- **Tools & Platforms:** Git, GitHub, Excel, Unity
- **Core Concepts:** Database Management Systems (DBMS), Object-Oriented Programming (OOP), Data Processing, Real-Time Systems, JWT Authentication
- **Key Competencies:** Technical Agility, Peer Collaboration, Clear Articulation, Complex Logic

## Experience

**Celebal Technologies** | Remote, Jaipur, Rajasthan, India

*Data Engineering Intern* | May 2026 – Present

- Engineered scalable data processing workflows using **Python** and advanced **SQL (including complex subqueries)** to extract, clean, and transform large datasets.
- Applied core **data engineering concepts** to design data ingestion pipelines, leveraging **Apache Spark** and **Databricks** for distributed data processing and analytics.
- Participated in comprehensive project **planning** and execution, transforming raw data into structured assets through rigorous **data cleaning** and validation methodologies

## Projects

**ATM Simulator System** | Java, Swing, AWT, MySQL | Dec 2024 – Jun 2025

- Architected and managed a MySQL relational database handling 1,000+ simulated transaction records, ensuring data consistency and integrity.
- Developed SQL-based storage and retrieval operations, improving query execution efficiency by 25%.
- Engineered backend transaction modules for balance inquiry, deposit, withdrawal, and fund transfer functionalities.
- Implemented secure and structured data handling workflows to simulate real-world banking systems.

**Gesture Play: Motion-Controlled Racing** | Python, OpenCV, MediaPipe, Unity, UDP | Jul 2025 – Nov 2025

- Programmed a motion-controlled racing game processing real-time gesture inputs at 30 FPS using OpenCV and MediaPipe.
- Configured UDP-based network communication, reducing input latency by 40% for smoother gameplay interaction.
- Processed continuous input streams to simulate real-time data pipelines and event-driven architectures.
- Integrated Unity with Python-based gesture recognition, achieving highly accurate hand-tracking for interactive controls.

**Campus Sync** | Django REST Framework, React, PostgreSQL | Dec 2025 – Apr 2026

- Built a high-throughput, full-stack campus management platform with role-based access for 100+ student and club users.
- Developed robust RESTful APIs utilizing Django REST Framework and integrated them with a responsive React frontend.
- Implemented JWT authentication and role-based authorization to elevate platform security and secure access management.
- Designed an admin dashboard to manage users, clubs, and events, reducing manual administrative coordination efforts by 50%.
- Integrated live messaging, smart search, and event workflows to increase user engagement and operational efficiency

**Education**

---

**Maharishi Markandeshwar (Deemed to be University)** | Mullana, Haryana  
*Bachelor of Technology in Computer Science and Engineering (B.Tech - CSE)* | Sep 2023 – Present

- CGPA: 8.015

**Bhutandevi Higher Secondary School** | Hetauda, Nepal *12th Grade* | 2023

- Score: 87.75%

**Trijuddha Mahavir Prasad Raghuvir Ram Secondary School** | Birgunj, Nepal *10th Grade* | 2021

- Score: 93.0%

**Certifications**

---

- **Micro-Certification: Welcome to ServiceNow** – ServiceNow | Jan 2026
- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** – Oracle | Dec 2025

**Achievements**

---

- **Top Performer – CodeRush (byteXL, 2026):** Recognized for high-velocity algorithmic coding and optimal execution under intense deadlines.
- **2nd Place – DSA Command (2025):** Solved advanced Data Structures and Algorithms (DSA) challenges in an inter-university coding competition.
- **3rd Place – Front-End Fusion (2025):** Awarded for responsive UI/UX design and rapid frontend application development.
- **1st Place (2024) & 2nd Place (2025) – National Space Day Quiz:** Achieved top ranks in aerospace and space science competitions.
- **3rd Place – Republic Day Quiz Championship (2026):** Recognized for exceptional aptitude and critical reasoning skills.
- **Inter-College Athletics:** Represented MMEC in the University Badminton Tournament, securing 3rd position overall.
