

SANJAY KUMAR SAH

sahsanjay2006@gmail.com | +917783835165 | Mullana, Haryana | [LinkedIn](#)

Professional Summary

Full-Stack Software Engineer with 2+ years of project experience in developing scalable web applications, real-time systems, and data-driven solutions. Proficient in Python, Java, React, Django REST Framework, SQL, PostgreSQL, and Apache Spark, with hands-on experience in backend development, ETL concepts, and cloud technologies. Built and optimized multiple academic and personal projects serving ~500+ simulated users while improving data processing efficiency and reducing response latency by ~30%. Strong problem-solving, teamwork, and communication skills demonstrated through national-level competitions and collaborative development projects.

Skills

- **Programming Languages:** Python, c++, Java, SQL, JavaScript
- **Frontend & Web Technologies:** HTML, CSS, React
- **Backend & Frameworks:** Django REST Framework, REST APIs
- **Big Data & Data Engineering:** Apache Hadoop, Apache Spark, PySpark, ETL Pipelines, Data Ingestion, Batch Processing
- **Databases:** MySQL, PostgreSQL
- **Cloud Technologies:** Oracle Cloud Infrastructure (OCI Certified), Basic Azure & AWS
- **Tools & Platforms:** Git, GitHub, Excel, Unity
- **Core Concepts:** DBMS, OOP, Data Processing, Real-Time Systems, JWT Authentication
- **Soft Skills:** Problem Solving, Teamwork, Communication, Analytical Thinking

Experience

Prodigy InfoTech — Data Science Intern *May 2025 – Jul 2025 | Remote*

- Engineered data preprocessing pipelines, visualizations, and baseline machine-learning models with Python and SQL.
- Executed data-cleaning and transformation on 5,000+ structured records, improving data quality by 15%.
- Improved analytical and problem-solving skills through real-world data science tasks and project-based learning.
- Partnered with mentors and peers remotely to deliver all internship assignments on schedule.

Celebal Technologies — Celebal Excellence Intern *May 2026 – Present | Remote, Jaipur, Rajasthan, India*

- Developing cloud, data engineering, and full-stack development concepts through industry-oriented training and projects.
- Acquired hands-on exposure to technologies such as Python, SQL, cloud platforms, and elastic application development.
- Co-leading in team-based learning environments to build practical problem-solving and development skills.

Projects

ATM Simulator System | Java, Swing, AWT, MySQL | 12/2024 – 06/2025

- Designed and managed a MySQL relational database handling ~10,000+ simulated transaction records with ensured data consistency and integrity.
- Developed SQL-based storage and retrieval operations, improving query execution efficiency by ~25%.
- Built backend transaction modules for balance inquiry, deposit, withdrawal, and fund transfer functionalities.
- Implemented secure and structured data handling workflows simulating real-world banking systems.

Gesture Play: Motion-Controlled Racing | Python, OpenCV, MediaPipe, Unity, UDP | 07/2025 – 11/2025

- Developed a motion-controlled racing game processing real-time gesture inputs at ~30 FPS using OpenCV and MediaPipe.
- Implemented UDP-based communication, reducing input latency by ~40% for smoother gameplay interaction.
- Processed continuous input streams simulating real-time data pipelines and event-driven architectures.
- Integrated Unity with Python-based gesture recognition, achieving accurate hand-tracking for interactive controls.

Campus Sync | Django REST Framework, React, PostgreSQL | 12/2025 – 04/2026

- Built a high-throughput full-stack campus management platform with role-based access for ~1,000+ potential student and club users.
- Developed RESTful APIs using Django REST Framework and integrated them with a responsive React frontend.
- Implemented JWT authentication and role-based authorization, improving platform security and access management.
- Designed an admin dashboard to manage users, clubs, and events, reducing manual coordination efforts by ~50%.
- Added live messaging, smart search, and event workflows to improve user engagement and operational efficiency.

Education

- **Maharishi Markandeshwar Deemed to be University, Mullana (B. Tech - CSE)** 09/2023-Present
- **Bhutandevi Higher Secondary School, Hetauda, Nepal (12th) - 87.75%** 2023
- **Trijuddha Mahavir Prasad Raghuvir Ram Secondary School, Birgunj, Nepal (10th) - 93%** 2021

Certifications

- **Micro-Certification - Welcome to ServiceNow – ServiceNow** 01/ 2026
- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** 12/ 2025

Achievements

- **Top Performer – CodeRush (byteXL, 2026):** Recognized for strong competitive programming and problem-solving skills under time constraints.
- **2nd Place – DSA Command (2025):** Solved advanced DSA challenges in an inter-university coding competition.
- **3rd Place – Front-End Fusion (2025):** Awarded for responsive UI/UX design and rapid frontend development.
- **1st Place (2024) & 2nd Place (2025) – National Space Day Quiz:** Achieved top ranks in aerospace and space science competitions.
- **3rd Place – Republic Day Quiz Championship (2026):** Recognized for analytical thinking and aptitude skills.
- **Represented MMEC in University Badminton Tournament:** Secured **3rd Position** in inter-college badminton competition.
